this is not just a new edition but a different book emphasizing trauma and wound analysis the addition of a new co editor dr francisco j diaz has brought new ideas to this fifth edition a chapter by doctor jan leetsma world renowned neuropathologist has also been included doctor leetsma s vast experience in forensic neuropathology will certainly enhance this book several chapters have been eliminated that are no longer applicable or which are adequately covered in other publications over time in the past 48 years since this book was first published medicolegal investigation of death has been dubbed the bible of forensic pathology the fifth edition includes over 600 case reports and hundreds of color photographs the cases are from files the authors have personally handled according to author spitz we have found many times analysis of small wounds will lead to understanding of a giant case like the case in hawaii where a body was found under a full size van with a thread mark on the cheek consistent with having been hit with a black pipe used for gas lines that were found in a bucket in the rear of the van as it turned out this was a murder not an accident the book is full of such cases this book will help you understand the details of injuries and how a person was injured and how they died and how these injuries perhaps at first blush possibly seemingly insignificant can shed new light on a case medicolegal investigation of death now embraces not just basic forensic pathology but also includes death during restraint conscious pain and suffering and new concepts related to the interpretation of injuries by detailed wound analysis the continued use of simple non technical terminology makes this book a truly unique treatise and source of information

medicolegal investigation of death is the first new textbook concerning this subject to be published in the united states in 20 years it is the authors stated purpose to answer these needs by developing a text establishing guidelines for the application of pathology to crime investigation the text is a fairly comprehensive volume covering a wide range of medicolegal problems confronting the criminal investigator the attorney and the novice forensic pathologist it was also the purpose of the authors and 14 very capable contributors to introduce the complex subject of the pathology of trauma to a varied professional audience

professional issues in forensic science will introduce students to various topics they will encounter within the field of forensic science legal implications within the field will focus on expert witness testimony and procedural rules defined by both legislative statute and court decisions these decisions affect the collection analysis and court admissibility of scientific evidence such as the frye and daubert standards and the federal rules of evidence existing and

pending forensic science legislation will be covered including laws governing state and national dna databases ethical concerns stemming from the day to day balancing of competing priorities encountered by the forensic student will be discussed such competing priorities may cause conflicts between good scientific practice and the need to expedite work meet legal requirements and satisfy client s wishes the role of individual morality in forensic science and competing ethical standards between state and defense experts will be addressed examinations of ethical guidelines issued by various professional forensic organizations will be conducted students will be presented with examples of ethical dilemmas for comment and resolution the management of crime laboratories will provide discussion on quality assurance quality control practices and the standards required by the accreditation of laboratories and those proposed by scientific working groups in forensic science the national academy of sciences report on strengthening forensic science will be examined to determine the impact of the field professional issues in forensic science is a core topic taught in forensic science programs this volume will be an essential advanced text for academics and an excellent reference for the newly practicing forensic scientist it will also fit strategically and cluster well with our other forensic science titles addressing professional issues introduces readers to various topics they will encounter within the field of forensic science covers legal issues accreditation and certification proper analysis education and training and management issues includes a section on professional organizations and groups both in the u s and internationally incorporates effective pedagogy key terms review questions discussion question and additional reading suggestions

the second edition of medicolegal investigation of death will continue to provide the forensic scientist the attorney and the law enforcement officer with a basic practical textbook for the application of pathology to crime investigation the text retains its comprehensive nature without being too technical yet includes the obviously technical materials including up to date references the original list of 14 authors has been expanded to 16 to include new developments in death investigation
